

Industrial Lubricant Catalogue

Powered by: KIZZEXX INDUSTRIES PRIVATE LIMITED

VISION

“Be a dominant Lubricant oil And Grease Company with significant national and international presence, Integrated to lubricant and other petroleum-Products”

➡ Drive for achieving the above vision ⬅

**R&D Infrastructure for innovative products
Superior manufacturing infrastructure
Skilled and experienced manpower
Manufacture & supply of quality products**

MISSION

To achieve international standards in all aspects of lubricants and greases with focus on customer delight through value of its products and services and responsible environmental performance.

- ➡ To maximize creation of wealth, value and satisfaction for all stake holders.**
- ➡ To obtain leadership in developing, adopting state-of-the-art technology for competitive advantage.**
- ➡ To cultivate high standard of business ethics and quality and environmental management.**
- ➡ We aim to work closely with our customers and partners to advance more efficient and sustainable use of energy and natural resources.**
- ➡ To seek a high standard of performance, containing a strong long term and growing position in the competitive environment.**

OUR PRODUCT

► Gear Oil ◄

Gear EP-90/140

Gear EP-100/150

Gear EP-220/320

Gear EP-460/680

► Hydraulic Oil ◄

HYD-32

HYD-46

HYD-68

Hydraulic-150

Hydraulic-100

Hydraulic-10W

► Industrial & Textile Oil ◄

Looms Oil 460

Embroidery Oil

Spindle Oil (10/12)

20W-40 Industrial Oil

Yarn Oil

Warping Oil

Conning Oil

Transmission Oil

► Grease ◄

High Temperature Grease

EP-2 Grease

Chassis Grease

Red Gel Grease

Gel Grease

MP-3 Grease

EP-0 Grease

EP-00 Grease

EP-000 Grease

Titanium-3 (red)

Semi Lithium Grease

Wheel Bearing Grease

GEAR OIL

Gear Oil: is a specialized lubricant designed to reduce friction, prevent wear, and protect gears in mechanical systems. It is formulated to handle high pressure and extreme conditions, making it ideal for gearboxes, differentials, and other gear-driven machinery. Gear oil is typically thicker than regular motor oil, providing better protection and sealing under heavy loads. It also helps to reduce heat buildup and minimize rust and corrosion in gear components. Available in different viscosities (e.g., EP-100,150,320,spindal oil), gear oil can be mineral-based, synthetic, or semi-synthetic, with additives tailored for specific applications.

Recommended by all major Looms Manufacturer

- ▶ WATER JET LOOMS
- ▶ AIR JET LOOMS
- ▶ RAPIER LOOMS

- ▶ Gear Oil EP-90
- ▶ Gear Oil EP-100
- ▶ Gear Oil EP-140
- ▶ Gear Oil EP-150
- ▶ Gear Oil EP-220
- ▶ Gear Oil EP-320
- ▶ Gear Oil EP-460
- ▶ Gear Oil EP-680

AVL.PACK SIZE: 10L,20L,55L,210L

HYDRAULIC OIL

Hydraulic Oil: is a specialized lubricant designed for hydraulic systems in industrial and heavy machinery. It provides efficient power transmission, reduces wear, prevents rust and corrosion, and ensures smooth operation. Available in mineral-based, synthetic, water-based, and biodegradable variants, it is used in construction, agriculture, marine, and manufacturing equipment. Common grades include ISO VG 32, 46, and 68, offering stable viscosity and high performance under varying temperatures.

Application: Lubricates presses, injection molding machines, and assembly line equipment, ensuring efficient power transmission and durability.

Supports hydraulic systems in drills, haul trucks, and other mining machinery under extreme pressure and temperatures.

- Hydraulic Oil-32
- Hydraulic Oil-46
- Hydraulic Oil-68
- Hydraulic Oil-100
- Hydraulic Oil-150
- Hydraulic Oil-10w

AVL.PACK SIZE: 10L,20L,55L,210L

INDUSTRIAL & TEXTILE OIL

Industrial oil: is a broad category of lubricants designed to meet the needs of various machinery and equipment across industries such as manufacturing, construction, energy, and transportation. It plays a crucial role in ensuring the efficiency, protection, and longevity of industrial equipment under harsh operating conditions. Withstands extreme temperatures, maintaining its performance under both high heat and cold conditions, making it suitable for heavy-duty applications like furnaces or refrigeration systems.

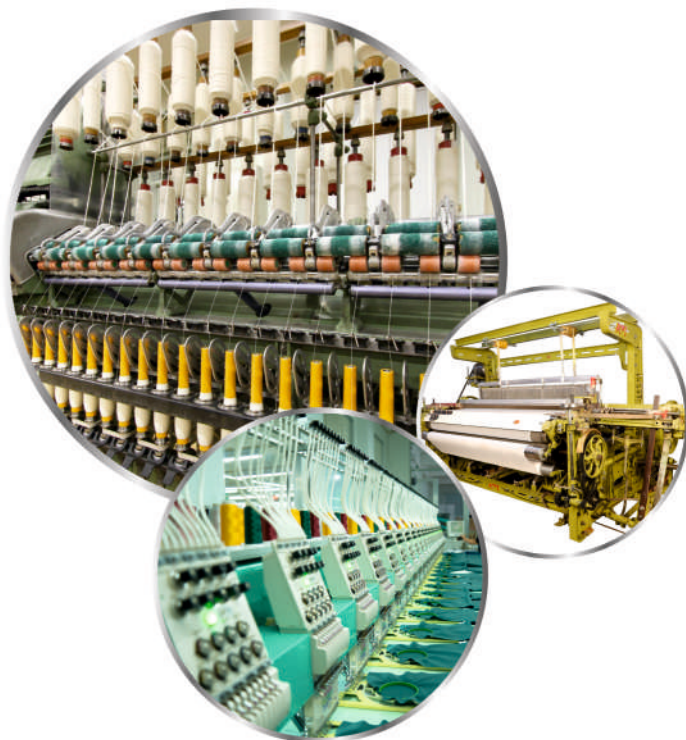

Textile machine oil: are specially formulated lubricants designed to meet the unique requirements of textile machinery. overheating.

Textile machine oil is a specialized lubricant formulated for the demanding conditions of textile manufacturing. It is designed to ensure smooth operation of high-speed textile machinery, reducing friction, wear, and energy consumption.

Typically, textile machine oils have a low to medium viscosity to accommodate the high-speed operations of textile machinery.

Application: All Types Of Industrial & Textile Machinery

- Looms Oil 460
- Embroidery Oil
- Spindle Oil (10/12)
- 20W-40 Industrial Oil
- Yarn Oil
- Warping Oil
- Conning Oil
- Transmission Oil

AVL.PACK SIZE: 10L,20L,55L,210L

INDUSTRIAL GREASE

Industrial Grease: is a high-performance lubricant designed to provide long-lasting protection to machinery and equipment in industrial settings. It consists of a base oil (usually mineral or synthetic) thickened with a thickening agent, such as lithium, calcium, or polyurea, and often includes various additives for enhanced performance. Industrial grease is used in environments where oils might not be suitable, providing superior lubrication and protection in applications requiring resistance to water, heat, dust, and heavy loads. It is commonly used in bearings, gears, joints, and other moving parts that operate under high pressure, ensuring smooth motion, reducing friction, and preventing wear.

Application: Industrial Equipment: In manufacturing plants, grease lubricates conveyors, gearboxes, and electric motors to prevent wear and reduce the frequency of maintenance.

- EP-2 Grease
- EP-0/00/00 Grease
- Chassis Grease
- Gel Grease
- Red Gel Grease
- Titanium-3 (red)
- MP-3 Grease
- High Temperature Grease

AVL.PACK SIZE: 10KG,18KG,180KG

OEM BUSINESS PARTNER

KIZZEXX INDUSTRIES PVT LTD

Plot No: 51 To 53, Shiv Bhakti Industries, Kadodara To Palsana Highway, Karan, Village Sanki, Chalthan, Surat, Gujarat, 395305
